Secomea LinkManager Mobile and Schneider Vijeo Design'Air Setup Guide

This guide explains the configuration of the environment for securely connecting the Vijeo Design'Air to a Schneider panel across the Internet using the Secomea remote access solution.

LinkManager Mobile generally allows you to remotely connect to equipment controlled by agents on SiteManagers. LinkManager Mobile can run on PC, MAC, iPad/iPhone and Android devices, and can connect to web enabled devices and remote desktop applications

Introduction

Introduction

The Vijeo Design'Air is intended for connecting from a portable device to a Schneider panel when both are located in the same local network.

The Secomea solution allows you to securely connect the Vijeo Design'Air across the Internet using the LinkManager Mobile on the portable device.

LinkManager Mobile connects to the Secomea GateManager M2M server, to which also a SiteManager having the panel installed locally is connected. These two end-points are linked to each other based on the user authentication on the GateManager server.

Prerequisites for This Guide

Prerequisites for this guide are:

- You have access to a Schneider panel such as the Magelis HMISTU655 that is supported by the Vijeo Design'Air app.
- You have either received a GateManager administrator account, by which you can configure a LinkManager Mobile account.

or you have received a LinkManager Mobile account that has access to a Schneider agent already configured on the SiteManager.

The SiteManager has already been configured with an appropriate agent for a Schneider panel that supports the Vijeo Design'Air,

or you have access to the Web GUI of the SiteManager for performing the configuration of the Schneider agent.

- The SiteManager has firmware 5.6 build 14265 or newer.
- You have a free LinkManager Mobile license in your GateManager domain.
- You have an iPad, iPhone or similar portable device that is supported by the Vijeo Design'Air.
- You have Internet access from your portable device.

1. Configure the Schneider Agent 🕅

If you know that the agent is already configured on the SiteManager you can proceed with chapter 2 now.

1.1. Connect to the SiteManager GUI

The agent is configured via the SiteManager Web GUI, which can be reached with a web browser by any of the following methods:

- If you are connected to the same network as the Uplink or DEV port of the SiteManager, you can type the IP address of the SiteManager in your browser address field (e.g. https://10.0.0.1). The SiteManager will prompt for a password. User is "admin" and default password is "admin".
- If the SiteManager is connected to a GateManager, and you have a GateManager Domain administrator account (GateManager PREMIUM), you can locate the SiteManager and click on the "SiteManager GUI" button, which will automatically connect you to the SiteManager without having to login.
- If the SiteManager is connected to a GateManager, and you have a LinkManager connected and your account has access to the SiteManager, you can click on the "Go To Device" globe icon for the device, which will automatically connect you to the SiteManager without having to login.

The following assumes you have connected to the SiteManager by one of the above methods:

1.2. Configure the agent

1. In the initial "Setup Assistant" view, select "Fix/Edit" for option 5 "Device Agents":

Siter secume	Manager •				
	SETUP • Syste	m GateManager VPN	Routing Maintenance	Status Log •	HELP
		SiteManager 1	039 - Setup Assistant		
	1. GateManager:	gm07.secomea.com	Connected to 193.242.155	.117:443 (UPLINK)	Edit
	2. Uplink port:	172.16.16.103/24 (DHCP)	Up		Edit
	3. Uplink2 (2G/3G):		Not Installed		Edit
	4. DEV port:	10.0.0.1/24 [default]			Edit
	5. Device Agents:		No agents defined		Fix
	6. Admin Password:		Using default password		Fix

2. Select New

Help	Continue Setup »
sing 0 of 2 agents	

Page 4 of 15

3. Enter a descriptive name for the panel, select Device Type "Schneider / Ethernet", enter the IP address of the Schneider panel and select Save.

					Help	Continue Setup »
Using 1 of 2 agents						
Status	Disable	S/N	Device Name	Device Type	Device I	P & Parameters
new:		#00	My Panel	Schneider Electric 🗨 Ethernet	▼ 10.0.0.10	1
				Save New	SNMP >>	

4. If the panel is found on either the Uplink or the DEV network of the SiteManager, the agent should go "IDLE":

		Help Continue Setup »
	Using 1 of 2 ag	ents
Status Disable S/N Device Name	Device Type	Device IP & Parameters
IDLE #00 My Panel	Schneider Electric 💌 Ethernet	💌 10.0.0.10 t
<u> </u>	Save	SNMP >>

5. You can now close the browser window for the SiteManager GUI.

Troubleshooting: If the Agents remains "Starting" and after a while changes status to DOWN (do regular Refresh regularly), it could mean that either the Panel is not powered on, or the panel is NOT configured with an IP address in the same network (subnet) as either the Uplink or the DEV port of the SiteManager, or the panel is NOT physically connected to a network that corresponds to the Uplink- or the DEV address of the SiteManager.

2. Create the LinkManager Mobile user account

If the LinkManager user account is already created you can proceed with chapter 3.

2.1. Login to GateManger and create LinkManager user

- 1. Login to the GateManager portal with your GateManager BASIC or PREMIUM administrator account.
- 2. When logged in select the **Accounts** tab, and select the "+" icon to create a new account

Tree		
\$	A	🔿 뤒 - Acme_Inc
Acme_Inc AcmeAdmin L III (LM Mobile #1252)		Accounts Licenses Relays Audit
		Create new account

3. Fill in the following information:

Tree	My Account About Logoff
¢	🗢 🔿 🙎 - [New account]
E- Care_Inc Care_ [New account] Care AcmeAdmin	Account Audit
L 📮 ¹ (LM Mobile #1252)	Account Name: Account Role: LinkManager Mobile Assign license: Account Language: Description:
	Person Name: Mr. Acme Email: 3 Mobile: Person Info:
	Disabled: Last Login: Created: 2013-04-10 Renewed: Expires:
	Authentication: OSMS Password Duration: Permanent Mail Template: Use default Message:
	Change Password New password: Repeat: Auto password: SMS new password:
	Save Cancel
	🛗 GateManager secomea

1 The Account name. This is the login name

2 Check the License field, which will allocate a free "LM mobile" license found in the domain.

• Person Name, Email and optionally Mobile. In this exercise you will likely create the account for yourself. You can later create accounts for other users.

O Select **Auto password**, which will automatically generate a password that will be emailed to the user, or manually type a **Password**.

4. When pressing **Save**, the email with the user name and link to the LinkManager Mobile login is automatically send from the GateManager.

3.1. Logging in with LinkManager Mobile

1. Locate the email that was sent to you from the GateManager. The email will indicate if you should use password only, or if your password is combined with an SMS code. Note that SMS code requires that your GateManager or the domain on the GateManager has been enabled for SMS.

The Password will be received in an email, by SMS or verbally by the administrator, depending on what option was selected at account creation.

2. Click the link in the email and the web browser will open. It is a good idea to bookmark this link for future use. The login screen will look like this:

Page 8 of 15

3. When logged in, you will get a list of all domains and equipment that you have access to. In our example it will show the root domain of the account "Acme_Inc", and tapping this domain, would show the SiteManager and the Agent we be named "My Panel":

ocked SIM 🗢		10.30	5	5 % 🔳
C Refresh		GateManager07	L	.ogoff
Online Offline 🔨	Flagged			
③ Filter items				
Acme_Inc			1/	0
* Acmelncs_SM				•
My Panel - 10.0.0.10				e
Devices	Audit	Admin	sectmea	_

The LinkManager Mobile and the Agent are now ready.

3.2. Configure the Vijeo Design'Air app.

You probably already have downloaded and installed the Vijeo Design'Air app from App Store, in which case you would only need to create a new connection profile.

1. Log into the Vijeo Design'Air, and select "+" to create a new connection profile.

2. Enter the following settings:

Q. Edit	Cancel	Add Device	Save	+ Ø
paneldirect 10.0.0.10 (6002)	Name	gatemanager07		>
	IP Address	193.242.155.117	2	
	Port Number	5900	3	
			•	

Server Name. Define a name of choice. In this case we have just called it the name of the GateManager through which the LinkManager Mobile connects.

IP Address: Enter the IP address of the GateManager server. You can find this in the same mail you received with the LinkManager Mobile account mail.

LinkManager Mobile password-only account for AcmeMobileUser on Secomea
do-not-reply@secomea.com Sent: to 11-04-2013 17:30 To:
Hello Mr. Acme This mail is a notification that the LinkManager pobile account "AcmeMobileUser" has been created for login to the Secomea GateMenager server. The password associated with the account will be informed to you verbally or in a separate mail.
Follow this link to the LinkManager Mobile login screen: <u>https://gm07.secomea.com</u> (or alternatively: <u>https://193.242.155.117</u>). (It is recommended to bookmark this page in your browser)
In the Login screen type your username "AcmeMobileUser" and the password.

B Port. Enter Port 5900.

NOTE: You should always use port 5900, even if the panel and the device agent in the SiteManager is specified for port 6002. GateManager will automatically map port 5900 from the LinkManager Mobile to the port configured for the agent.

3. Click Save in the Vijeo Design'Air app to save the new profile.

Page 10 of 15

3.3. Connect to the Panel with the LinkManager Mobile

1. Return to the LinkManager Mobile and locate the agent.

Locked SIM 🗢	10.30	55 % 📼
C Refresh	GateManager07	Logoff
Online Offline Tlagged		
G Filter items		
Acme_Inc		1/1 0
* Acmeincs_SM		# •
@ / My Panel - 10.0.0.10		II 0

2. Tap it to open the detailed agent settings, and tap the "VNC" button.

না। Telenor DK ক	11.35	Not Charging
¢ Back	My Panel (Acmelnos_SM) - 172.16.16.138	
Name:	My Panel (AcmeIncs_SM) - 172.16.16.138	

NOTE: If the HMI button does not appear, it means the Vijeo application has not been installed or activated on the panel, or the SiteManager has a firmware version older than 5.6 build 14265.

3. When the following screen is shown, it means that you have established a connection from your LinkManager Mobile to the panel.

Locked SIM 🗢	10.30	55 % 🖃	
S Back	GateManager07		
	Start Vijeo Design'Air		
	Host: gm07.secomea.com		
	CLOSE		

Within 60 seconds you should connect with the Vijeo Design'Air app, otherwise the connection is closed again, and you would need to repeat the above procedure.

Page 11 of 15

3.4. Connecting Vijeo Design'Air remotely to the panel

1. Click the home button to return to the desktop and select the Vijeo Design'Air app. Click the connection profile you just created.

Q Edit	Favorites	+ 0
paneldirect 10.0.0.10 (6002)		>
gatemanager07 193.242.155.117 (5900)		>

2. You will now be prompted for security warning. If you are sure there will be no issue in connecting to the panel, you should select Yes and OK:

QEdit		₽
paneldirect		>
gatemanager07 193.242.155.117 (5900	Depending on the security design of the HMI Project, all touch objects might be accessible for touch and input on this remote device. Accidental touches can cause unintended operations to run in the system.	>
	MARNING	
	You must take all necessary steps to prevent accidental touches.	
	Know and understand the hazards surrounding equipment movement started by remote operation. You must satisfy all gates and interlocks for protecting people and equipment.	
	Failure to follow these instructions can result in death, serious injury, or equipment damage.	
	I understand and accept responsibility regarding use of this functionality.	
	Cancel	

Page 12 of 15

3. You will now be brought directly to the panel view:

Schneider II					
Targets	Graphics	Animation	Recipe		
Alarm	Data	Security	Comm.		
Actions	PLC	Editor	DDT		
Form Print			٩		

You can now operate the panel as you would do if connected locally to the panel

3.5. Troubleshooting Vijeo Design'Air connection errors:

If you get the following message it would indicate that the LinkManager Mobile session has timed after tapping the "HMI" button and before you attempted to make the connection with the Vijeo Design'Air.

Or it could be that the agent on the SiteManager is not configured correctly (Check the screen in section 1.2 again.

If the same message should occur during the session with the panel, it could indicate that the LinkManager Mobile session has been stopped independently of the Vijeo Design Design'Air.

Try repeating connecting to the agent with LinkManager Mobile and establishing connection with Vijeo Design'Air.
